
Master of Science in Education - Counseling

**Acknowledgement of 3-Day
On-Campus Residency
and Application to Candidacy**

Effective Fall semester 2014, all counseling students are required to participate in the counseling residency after taking 15 credit hours. This form is official acknowledgement of your responsibilities in taking the appropriate classes early in your program.

I understand that I will be required to participate in a 3-day on-campus residency after completing approximately 15 credit hours in my counseling degree program, including COUN 725 and COUN 740. Furthermore, I understand that the residency will be held on the Martin campus and that I am responsible for all travel and lodging costs associated with the 3-day residency.

I acknowledge that I will not be allowed to continue past 24 credit hours without participating in the residency and that my continuation in the program depends on this residency and the one-on-one interview that is a part of the residency.
