4. Please provide any additional information about the information provided above:

The recommendation for entering the program (Intent to Hire) comes from the employing school system. UT Martin verifies for the system and DOE that all requirements have been met and that the candidate is ready to be declared a completer of the program.

Supervised Clinical Experience

Note: The clinical experience requirements in this section are preloaded from the prior year's IPRC. Teacher preparation providers will enter the number of participants each year.

Provide the following information about supervised clinical experience in 2022-23. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Please provide any additional information about or descriptions of the supervised clinical experiences:

Individuals in the alternative licensure program are hired to teach in most cases before they begin taking any coursework in education. The mentoring/induction hours are provided by the employing LEA. Each job-embedded licensure teacher is appointed a mentor by the employing LEA. UT Martin provides ongoing support for all candidates throughout the 3-years of serving on a job-embedded license.

Enrollment and Program Completers

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

- >> [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2022-23.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

[What are CIP Codes?](#)

No teachers prepared in academic year 2022-23

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2022-23. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education—Chemistry" category.

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

Note: This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

The alternative licensure program is based on criteria/competencies established by the Tennessee State Department of Education. The coursework required for the alternative licensure program has been paired with the criteria/competencies. Given that this is an alternative licensure program, individuals can meet the criteria/competencies in other ways besides coursework.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Summary Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(\\$205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Technology is covered extensively in all educator preparation programs. Educational Studies 750 is a technology class offered for specific programs. The class covers technology and its integration for the specific major. In addition to the specific technology classes listed above, technology usage is integrated throughout the curriculum. All classrooms are equipped with technology that students can actively use in class presentations. Students are trained on how to various apps and modalities to use in their P-12 classrooms. Instruction includes but is not limited to, data collection, data management, and data analysis. EDEV 761 (Diagnosis & Assessment) has been revised to provide a more in-depth look at the Tennessee Value-Added Assessment System (TVAAS). Students are required to take five self-paced modules which help the students further understand, interpret, and use TVAAS value-added analysis to inform practices and accelerate student progress. Students discuss strategies and best practices that meet the needs of all students. They are also given instructions on how to access reports for comparison among classes, schools, and districts. Special Education 640 addresses the need for differentiated instruction by using multi-methodologies to reach all students. Universal design for learning is required to be used in all lesson plans throughout the curriculum. A learning module focused on Response to Intervention and Instruction (RTI2) has been added to READ 700, graduate initial licensure. Typically, reading disabilities are identified by teachers in grades PreK-5. Since RTI2 is mandated for reading in Tennessee, a learning module that includes instruction, video, and reflection is now included in the delivery of READ 700 to better equip teacher candidates to understand their role and function in RTI2. For the past several years, there have been several important educational initiatives in the state of Tennessee. Due to the Covid-19 pandemic, students learned how to use various forms of technology to reach their students and complete

certified in order to better assist partner schools and clinical mentors with online learning. Most job-embedded programs also require EDST 750, Teaching with Technology. This course provides a research-based overview of the use of a variety of media and technology tools as an integrated part of the teaching and learning process. Emphasis is on current technology-related issues in schools and the use of technology to promote learner-centered classroom environments.

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

Among the general instructional strategies, knowledge and skills (Teacher Education 730 at the graduate level and TCED 302 at the undergraduate level) required for the alternative licensure candidates are strategies for students with disabilities including ELL students. All job-embedded students are required to take an introductory special education class. Differentiating instruction is taught throughout the required coursework.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

UT Martin is one of the largest producers of job-embedded candidates in West Tennessee and across the state, serving many of the rural school systems in the surrounding area. UT Martin sought approval for an alternative licensure program in order to better serve the surrounding school districts. We strive to assist partner districts in hiring fully licensed teachers by working closely with the school districts to identify candidates who are eligible to be hired on the job-embedded license. UT Martin and the school district work closely in assisting teachers hired on the job-embedded license to complete the criteria/competencies in order for them to advance to an apprentice license.
